## GENERAL REMARKS.

The schools in town the past year have generally been highly satisfactory to the School Board, and to parents, teachers and scholars. The only exception was the spring term in the Eaton Division. The teacher, although of superior literary attainments, on account of inexperience, and want of energy, did not succeed well; and when the school had continued about six weeks the School Board were pleased to accept her resignation.

On account of building a school house at the Old South, there was no spring term; and a fall term was omitted at the Gore for a like reason.

By vote of the school district at the last annual meeting, the sum of \$250; was appropriated for the building of a new school house at the Gore. A school house lot was selected by the School Board, on land of Mr. Nolan, who generously deeded the same to the Town. The public spirited citizens of the locality having agreed to fence in the lot, and lay the foundation for the house, the School Board contracted that the building should be ready for occupancy by May first 1890, for \$230.

Because there was no money to continue them, the third term of all the schools was too short. That in the Burpee division was prolonged 4 weeks by the citizens; the only expense to the town being for wood and use of house.

One of the first requisites for successful schools, is the prompt, and regular attendance of the scholars. We refer with satisfaction to our selves and commendation to parents and scholars, to the Reports of the several teachers on this point. The long Roll of Honor indicates an interest, that words would fail to express.

The School Board have endeavored to faithfully and impartially apply the limited means at our disposal, and desire to express our thanks to the citizens generally for their hearty co-operation with us in securing to the scholars the greatest possible benefits from the funds appropriated.
